### SUMMARY

I'm a passionate software developer with 4 years of experience building web and mobile apps primarily using React, React Native, Node.js, and AWS. I'm an independent, self-driven, and motivated individual that loves to solve complex problems and to collaborate with others.

### EXPERIENCE

#### Sandbox (Creative Agency)

Software Development Lead

May 2020 - Current

- Developed a social media app using React Native, GraphQL, MongoDB, and AWS
- Hired and directed the work of a junior developer
- Contributed to the ongoing product design

#### ROSS (SAS - AI Legal Research Tool)

Software Developer - Growth Team

Sep 2019 - April 2020

- Developed the option of multi-user firm subscription on the app, including payments and user permissions
- Developed the onboarding of a new user to the app
- Developed the case study pages on the marketing website
- Contributed to ensuring the 13 million law cases in our database are searchable
- Contributed to the integration with another app to transfer brief documents and analyze them

#### Digital Native (UX/UI Agency)

Software Developer - Independent contractor

Jan 2018 - April 2019

- Developed the company's new website
- Developed web pages for a leading fitness company
- Developed a new website for a law firm
- Developed a new website for a restaurant
- Developed a new website for a photographer

#### Good Weekend Co. (Trip Planning Tool)

Software Developer

Jan 2019 - June 2019

- Planned and executed the development of the app
- Contributed to the design of the app

#### Gruifrom (Digital Agency)

Team Lead

Dec 2017 - Aug 2019

- Led a team of 4 developers to develop a new front end for an oil stock trading platform in Asia using Vue.js
- Led the development of a new website for an Art school
- Led the development of a new website for a real estate development company

#### Locksmith Near Me

Website Designer and Developer

Oct 2017 - Dec 2017

- Designed and developed a website for a local locksmith company

### SKILLS
